Cabling: The Complete - Weebly

Draw circles of a 50 m radius from each of the hub locations and ensure all nodes fall within one such circle (the hub "catchment" area). Scattered outlets may be outside this radius, but not too far (say no more than 15 m). Consider eliminating hub locations whose catchment areas substantially overlap.

INTRODUCTION TO STRUCTURED CABLING

Cable. • The minimum inside bend radius, under no-load or load, for a 4-pair balanced twisted-pair cable shall be four times the cable diameter. • The minimum bend radius, under no-load or load, for a multipair cable shall follow the manufacturer's guidelines. Cord Cable.
