Central to the design of the Global Citizens' Assembly is the ambition to provoke a global conversation. Genepool Productions in association with December Media have developed a science documentary series, entitled 'Mutant', that will film the process and explore how citizens of the world weigh in on one of the most consequential and complicated issues of scientific ethics.

## **'Global citizen deliberation' paper published in 'Science'**

Globalization and Global Citizenship examines the meaning and realities of global citizenship as a manifestation of recent trends in globalization. In an interdisciplinary approach, the chapters outline and analyse the most significant dimensions of global citizenship, including transnational, historical, and cultural variations in its practice;

## **Globalization and Global Citizenship: Interdisciplinary ...**

Most of the initiatives with broad taxonomic scopes are national or subnational in scale, so they don't provide valid options for citizens outside of these countries. iNaturalist was the only citizen science initiative we found with a global geographic scope and broad taxonomic scope, so it seems a valid option for the majority of citizens interested in contributing to a global IAS database ...

## **Citizen science and invasive alien species: An analysis of ...**

We propose a crucial, complementary effort, which would involve global public deliberation to explore the science and its implications, beginning with a global citizens' assembly. There is already vast experience with citizen deliberation at local and national levels, on complex issues including those involving scientific and technological risk accompanying potential benefits.
